Frontend (React)

- React Router
- **React Helmet** (SEO meta)
- Lazy loading
- Environment variables
- Form validation
- Conditional rendering (roles)

🔧 Backend

- Role-based access (User / Guide / Admin)
- Booking status states
- Unique ID checks (Guide ID)
- Manual approval flow
- Pagination & sorting
- Basic rate limiting

🔧 Payments

- Razorpay order creation
- Payment verification
- Webhook handling
- Refund API
- Payment status mapping

🔧 SEO / Visibility

- Meta titles & descriptions
- Sitemap.xml
- Robots.txt
- Google Search Console
- Location-based keywords

🔧 Notifications

- Email notifications
- Admin alerts
- Status update triggers

🔧 Security / Stability

- Input sanitization
- Auth token expiry

- Error handling
- Logging

🛠 Deployment

- Build optimization
- HTTPS
- Domain mapping
- Basic monitoring
